Product highlights

Wireless streaming
With wireless streaming, you don't need to download and store large music files on our audio device. Instead, you can listen to favourite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts your desired music from the Centre to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in any room that is equipped with a Wireless Music Centre or Station.

Multiple User Access
Different family members in five different rooms can access & listen to their own choice of music from the Wireless Audio Centre at the same time.

80GB Hard Disk/ 1500CDs
The 80GB Hard Disk offers a very large capacity for you to store your digital music files. It easily holds up to 1500CDs of your music collection, and the recording speed is so fast that you can basically play and rip a particular song almost at the same time.

Universal Plug & Play
Universal Plug & Play is an industry standard technology that lets you connect to any Universal Plug & Play enabled device to receive or transmit music. Your Wireless Music Centre utilises Universal Plug & Play to ensure an easy and standard way to connect to other Universal Plug & Play enabled devices. You can easily connect your Wireless Music Centre to other media devices to receive or to transfer content.

2-way Remote Control
With Philips 2- way remote control, you can now navigate through hundreds of songs easily with the one simple press of the remote control.. Displaying six lines info listed according to playlist, album, artist, genre or track, this intuitive navigation offers speedy yet simple scrolling through hundreds of files. It allows one handed operation and guarantees a unique user experience.

Direct Content Access
No more searching through hundreds of your CDs to find your favourite track by a particular artist. With the initutive User Interface built-in the Philips Wireless Audio Centre, you can now have almost instantaneous and direct access to your stored digital music collection on the hard disc (up to 750 CDs) and go straight to the music you want to listen to, listed by Artist, Album, Playlist, Genre or Tracks.

"Music Follows Me"
Music follows Me feature allows you to bring your favourite music from room to room in your house without having to restart navigation and playback of that particular track. By simply pressing a button, your favourite song will follow you anywhere you go in your house.

Music Broadcast - Party mode!
Be your own DJ at your home party and simultaneously broadcast your favourite dance music from the Wireless Music Centre to all Wireless Music Stations installed in various parts of your home. Great for parties!
